

2015 Annual Review
1 Jan - 31 Dec

 **MAXIMUS** | United Kingdom
FOUNDATION

Global Caring. Local Sharing.

Introduction

At **MAXIMUS UK**, we've always had a strong sense of giving back to the communities we serve. In 2015, **MAXIMUS Foundation UK** was established as a not-for-profit enterprise to support community groups and charities that share our aims and values.

Thanks to the generous contributions of **MAXIMUS Foundation**, we are able to make significant investments to great causes across the UK. We do this by providing one-off grants to not-for-profit organisations that share our commitment to helping disadvantaged groups.

Thank 
you

In particular, those contributing to personal growth and self-sufficiency in:

**Health
Outcomes**

**Improved
Employment
Opportunities**

**Community
Development**

Each year, the Foundation Board of Trustees make funding decisions through two grant giving cycles. These generally take place in Spring and Autumn. Eligible community groups and charities can apply for funding by completing and returning an application for grant funding.

Applications are welcome from all eligible not-for-profit organisations, however, grants are not generally awarded to:

- Individuals
- Advertising, ticket events or dinner programs
- Political causes or candidates
- Endowments or capital campaigns
- Organisations that discriminate by: age, disability, gender, race, religion, sex, or sexual orientation

Message from the Chair

I'm delighted to present the first annual review for **MAXIMUS Foundation UK**. It highlights some of the worthy causes we've been able to support in our first year. It also offers an insight to 2016 and what the year ahead may bring.

Our journey started in late 2014, after observing the overwhelming success of the **MAXIMUS Foundation** in the United States. Their well-established model not only showcases the goodwill of **MAXIMUS** and their employees but also the huge difference that can be made to people's lives. It served to inspire our UK businesses to form a similar enterprise here in the UK.

2015 was a great first year; we supported 23 different causes by donating £57,500 in grant funding to a variety of charities across the UK. Each one of those grants will contribute in some way towards helping the most disadvantaged people in our communities.

The nature of each application varied greatly; from homeless charities to hospital wards and sailing associations to befriending schemes. It's fair to say that no two applications have been alike, yet all share a common drive to help people. I hope you enjoy the case studies included in this review, they offer a real insight to the great work taking place in our communities.

We're now looking forward to a new year and we have some exciting plans ahead. These include two more grant giving cycles and an internal focus on employee engagement and volunteering opportunities.

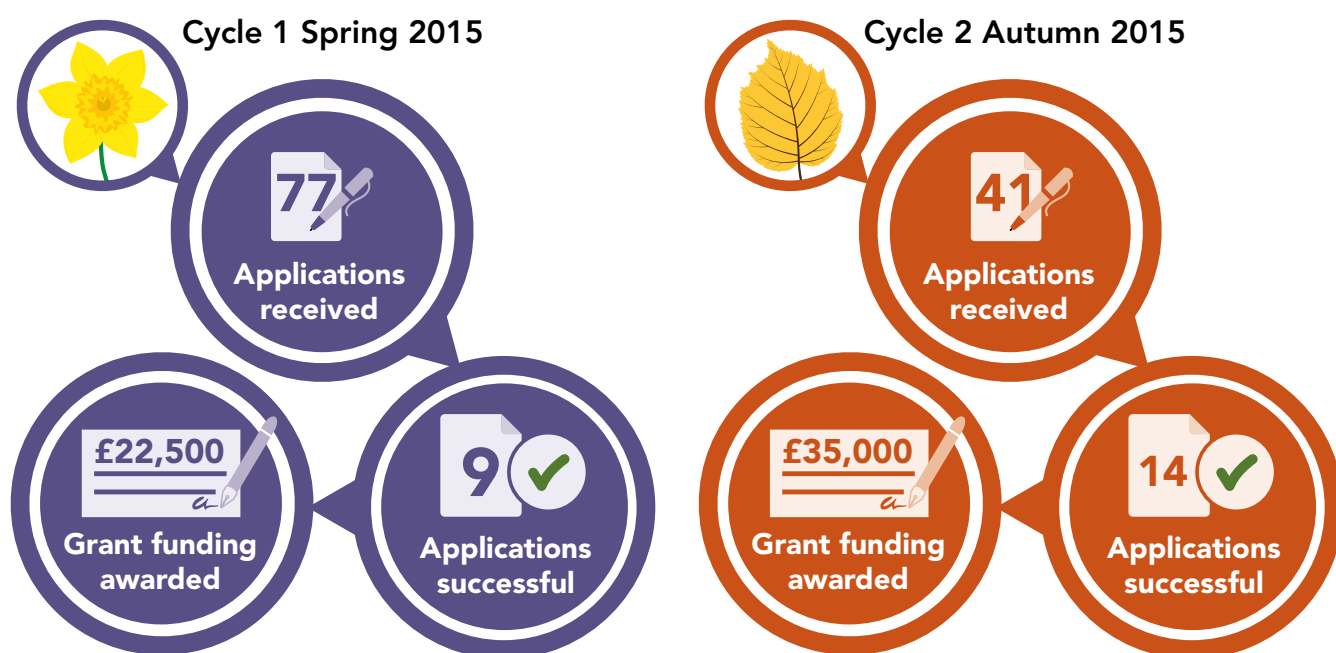

I hope you've enjoyed the journey as much as we have.

Marilyn Saunders
Chair, **MAXIMUS Foundation UK**

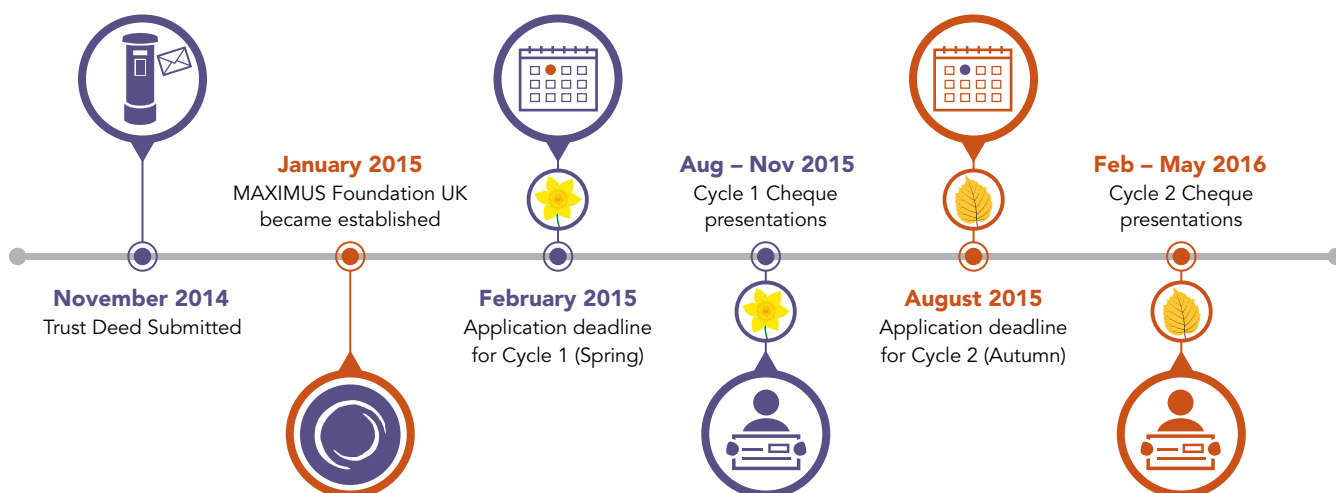

At a glance

The graphic below illustrates the activity in 2015. It includes the total number of applications received, the number of applications successful and the amount of grant funding awarded. It also highlights key dates in the 2015 calendar.

Board of Trustees

It has always been our aim to secure a board of trustees that represent all **MAXIMUS UK** businesses. Following the acquisition of **CHDA** and **Remploy** in 2015 the number of trustees to the board has also increased.

The structure below includes the appointment of six new trustees and the resignation of two. It also outlines their representation across each of the four **MAXIMUS UK** businesses.

Worthing Churches Homeless Project

New Breakfast Club for Shoreham homeless - we're proud to be part of that!

The Worthing Churches Homeless Project was founded in 1991 by four people who took food, blankets and sleeping bags to people sleeping rough on the seafront. The charity now employs more than 50 staff and is supported by more than 200 volunteers.

The Project provides homeless people with specialist services, including one-to-one support and workshops that assists them in being able to live independently.

Tina Sutcliffe nominated the charity for grant funding after they supported her sister through a difficult time.

"The Worthing Churches Homeless Project helped my sister enormously when she found herself homeless following a marriage break-up. They helped organise her finances, sourced accommodation and supported her emotionally. They still help my sister and she volunteers for them to give something back. I'm so pleased that my nomination was selected so others can benefit in the same way."

Tina Sutcliffe, MAXIMUS UK employee

The grant from **MAXIMUS Foundation UK** will fund the setting up of a new breakfast club in Shoreham to support people who are homeless or vulnerably housed.

"We're very grateful for the MAXIMUS Foundation UK's support. We help more 1,400 people each year by providing them with specialist and one-to-one support. The work we do helps vulnerable people to live independently, despite the difficulties they might have experienced. It is wonderful to have been nominated by Tina, thank you so much!"

Rachel Blair, Community Fundraiser

Southampton
Hospital
CharityFun and games over Easter for
Children's Cardiac Ward –
count us in!

The Children's Cardiac Ward at Southampton General Hospital cares for children and young people from the age of one day to 18 years. They offer a team of play specialists to provide play activities in either the playroom or at the child's bedside. This intervention helps prepare children for procedures using play therapy, enabling them to act out their anxieties and develop ways of coping.

Following a number of stays at the hospital with her own son, Caroline Banks, **MAXIMUS UK** employee put forward the nomination for grant funding.

"Coming into hospital is a scary thing for children and their parents. Having had first hand experience of this with my son, William, I know what a difference play therapy can make. I wanted other children and families to benefit from the same support we did."

Caroline Banks, MAXIMUS UK employee

The grant to Southampton Hospital Charity will fund the purchase of new toys and games for the children in addition to arts and craft materials to use as distraction tools over the Easter period.

"This donation will make a real difference at what is inevitably a difficult time for the children and their families. Most of the patients on the Children's Cardiac ward require long-term care so access to toys and games not only helps keep the children and their families entertained, but can be enormously helpful to their development and recovery – thank you!"

Lindsey Co, play specialist

ENRYCH

Recruitment of new volunteers to help people with learning and physical disabilities – we're keen to support that!

Enrych have been supporting people with disabilities for 30 years. They recruit volunteers to 'pair' with adults who have physical and learning disabilities for a few hours a week. This increases their self-confidence, independence and contributes to their long-term health outcomes. Enrych also employ Personal Assistants who are commissioned to provide a person centred support that can develop an individual's independence and skill set.

After witnessing the dramatic improvement in her son's confidence after being paired with a PA, Violet Chidombwe, whose son Tendai has learning disabilities, put forward the nomination for grant funding.

"Enrych paired Tendai with Vicky, a local PA, who spends several hours with him in social and volunteer settings. His confidence has since improved dramatically. He now looks forward to leaving the house and helps out at a local warehouse, preparing him to gain skills for work. It's my wish for others to benefit in the same way he has"

Violet Chidombwe, MAXIMUS UK employee

The grant of £2,500 from **MAXIMUS Foundation UK** will enable ENRYCH to continue promoting their work and recruit more volunteers.

"We're delighted MAXIMUS Foundation UK has recognised and is supporting our work. It's all too easy for adults with physical disabilities to be excluded from their local communities, with their quality of life suffering as a result. What we do provides valuable opportunities for what can be a very vulnerable group."

Colin Edis, Branch Manager for Enrych

Disabled
Sailing
Association

New Life Jackets for Disabled Sailing Association – we're totally on board with that!

The Disabled Sailing Association have been providing sailing at sea experiences to disabled people for over 10 years. Their unique sailing offer has touched the lives of many, be that with one-off excursions or becoming a long-term member as a regular sailor.

Free Spirit, the trusted sailing vessel, has been specially adapted to accommodate wheelchairs and other special needs equipment. It ventures out from the stunning backdrop of Torquay Harbour six days a week on 2-3 hour excursions or longer coastal passages with disabled people, their families and carers.

In support of the positive impact this has on the local community, Clare-Marie Taylor, **MAXIMUS UK** employee, put forward the nomination for grant funding.

"My husband was introduced to the association during a routine appointment for his epilepsy. Being involved with the association has made such a difference to his life and I've witnessed him grow in confidence since being involved. I wanted others to have the same opportunity."

Clare-Marie Taylor, MAXIMUS UK employee

The grant will fund the purchase of vital new life jackets for the Skippers, Crew and Passengers enabling the offer of regular sailing trips to continue.

"We're grateful for this grant, which will help us in continuing to provide sailing trips in a safe environment. The old life jackets were in need of replacement and the grant has enabled us to replace the entire stock. The Association changes people's lives, and any support that assists us in doing that is truly welcome."

David Musgrove, Chairman

Cycle Beneficiaries

Cycle 2 Beneficiaries (Autumn 2015)

Cycle 1 Beneficiaries (Spring 2015)

Hillside Clubhouse, London

We're supporting a mental health charity provide help and support to people with mental health problems.

Reading Crossroads, Reading

We're helping a respite charity offer breaks to full-time carers from their day-to-day caring responsibilities.
